HEAVY METAL

Yes, we're easily charmed by anything shiny, but this copper pendant has us truly bedazzled. It's perfect for any decor, from industrial to rustic. Hang it over a benchtop or cluster together for maximum wow factor. It's \$199 at yellowbungalow.com.au.

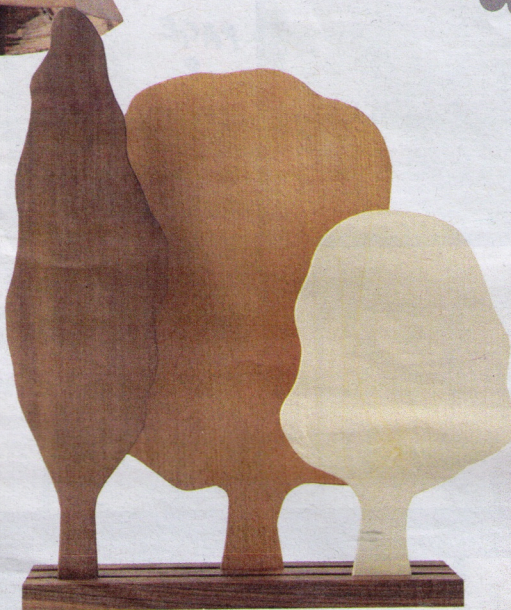

RICH TAPESTRY

Let the intricate patterns and rich colours of this art print transport you to a Turkish bazaar. Inspired by a vintage kilim, the hand-painted design has been printed on matte canvas (measuring L100cm x W70cm) and finished with cedar dowl. Hang it on your wall for \$253, from curiousgrace.com.au.

LUMBER SNACK

Designers around the world are doing some mighty impressive things with wood and we were jazzed to discover the German creators behind this forest of serving platters. The different boards, from Golden Biscotti, are made from maple, beech and walnut. They are sold individually (prices start at about \$34) or as a set with a holder for about \$120 at goldenbiscotti.bigcartel.com.

TOP BRASS

Add a little panache to your next garden salad with the help of these fancy brass salad servers. The spoons have been handmade with the simple geometrics of a square and circle in mind. The pair is \$30 at lightly.com.au.
